PROFESSIONAL SUMMARY

QA Engineer with over 4 years of experience in the SDLC, specializing in manual and E2E automated testing. Expertise in accelerating delivery cycles using Cypress and Playwright. Proven track record of integrating CI/CD pipelines and using AI to verify that code aligns with requirements.

TECHNICAL SKILLS

- **Automation Frameworks:** Cypress, Playwright, Postman, Appium.
- **Languages:** TypeScript, JavaScript, Python.
- **DevOps & CI/CD:** Docker, Jenkins, GitLab, GitHub Actions, Azure DevOps.
- **Cloud & Observability:** AWS (Lambdas), DataDog, Grafana, Argo CD.
- **Tools & Management:** PostgreSQL, Jira, Confluence, Qase, Swagger, AI-assisted development (GitHub Copilot, Gemini).

PROFESSIONAL EXPERIENCE

QA Engineer | Aug 2025 – Present

Gazin Tech | *Maringá, Brazil*

- Maintained robust test automation suites using Cypress and Playwright, seamlessly integrating them into GitLab CI/CD pipelines.
- Lead Quality Assurance for high-security mobile banking applications, ensuring transactional integrity and seamless user experience within a complex FinTech ecosystem.
- Leveraged AI tools to verify code compliance against task requirements and auto-generate documentation, optimizing resource allocation and accelerating delivery timelines.
- Accelerated test creation by leveraging AI to generate comprehensive Behavior-Driven Development (BDD) test cases.

QA Analyst | Feb 2025 – Jul 2025

Finnet/Gooroo Credit | *São Paulo, Brazil*

- Ensured quality for fintech applications through Cypress E2E automation and API validation via Bruno/Postman.
- Reduced fix turnaround time by managing the full bug lifecycle in Jira and enhancing QA-Dev cross-team collaboration.
- Validated data integrity for AWS Lambda-based architectures using PostgreSQL.

QA Analyst | Jan 2024 – Feb 2025

Sabium Systems | *Maringá, Brazil*

- Responsible for implementing the Cypress automation framework for Web and API applications, enhancing overall product quality.
- Orchestrated CI/CD pipelines via GitHub Actions to automate regression testing for Tax/Accounting ERP systems.
- Conducted extensive data validation through complex PostgreSQL queries and maintained detailed test documentation.

Test Analyst | Dec 2021 – Dec 2023

NCS Intelligent Systems | *Maringá, Brazil*

- Spearheaded end-to-end Quality Assurance for a critical legacy-to-web ERP migration. Conducted comprehensive manual testing across frontend, backend, and PostgreSQL databases, from requirements analysis to final delivery.
- Established standardized processes and frameworks for test case generation and comprehensive QA documentation.
- Introduced and built the foundational test automation framework from scratch using Cypress.

EDUCATION & LANGUAGES

- **B.S. in Software Engineering** | Unifatecie (Expected 2027)
- **Languages:** English (Advanced - C1), Portuguese (Native).
